

## *In touch with nature*

Photo by Lee Whitford / USFS

**Megan Magee, third from right,** an environmental education graduate student at Western Washington University, feeds starfish with children from Mount Vernon's Kulshan Creek neighborhood June 18 at the Port Townsend Marine Science Center. The children, from left, are Elizabeth Hernandez Garcia, Maria Fernanda Solis and Ariel Dominguez. The children visited the center as part of a program run by the U.S. Forest Service and the Mount Vernon Police Department to expose city children to nature.
